

Nationally Consistent Collection of Data of School Students with Disability

The Australian Government wants to plan better for the needs of students with disability which include Medical, Social and Emotional and Physical conditions and/or learning difficulties across Australia. To do this the government needs to collect information about the number of children who have a disability, what programs are currently being provided for them and what this will mean for resourcing in the future.

The first step for Ocean Reef Primary School will be to provide information about the number of children in our school with special learning needs and the programs and resources we use to support them. The information is confidential and no child's name will be provided to the Commonwealth.

We think that it's important for everyone to contribute to this project so it helps the government and the Department of Education to better provide for all students in Western Australia.
