

# EXCURSION REFLECTION

## WHO & WHERE

The Kindy and Pre-Primary students had a visit from ACHWA  
(Association for the Welfare for Children in Hospital) on Wednesday  
6<sup>th</sup> June

## EXCURSION FOCUS

- For students to become more familiar with hospital apparatus
- To promote oral language skills through role playing and group discussions
- Links perfectly with EYLF – 'Being, Becoming, Belonging'

## STUDENT COMMENTS

I liked it because the activities were fun. (Evie – Pre-primary)

I liked it because there was a big skeleton puzzle. (Wil – Pre-primary)

I liked dressing up (Zoe- Pre-primary)

I liked the wheel chair. (Aidan- Kindy)

I liked being an ambulance man. (Mason- Kindy)

## PARENT COMMENTS

I thought the incursion was done really well. It was great that the subject matter chosen suited both boys and girls they could all relate in some way, and had lots of stories to tell.

Having lots of props and hands on activities was really important to maintaining focus and interest.  
(Sharon Turner)

## TEACHER COMMENTS

The students enjoyed the hands on activities and role playing hospital scenarios. Well suited incursion for Kindy and Pre-Primary students. (Mrs Lackey)

A lovely opportunity for the Kindy and Pre-primary students to engage and learn about hospitals in a role play scenario, particularly to take away the fear of hospital that children may experience. All the Kindy students loved the role play and were very keen to use all the new words they learnt, in our own Cadet 1 Hospital home corner after the incursion. (Ms Vanzetti)
