

# NATIONAL SCIENCE WEEK 2018 REFLECTION

## Who and Where

Ocean Reef Primary School

13<sup>th</sup> to 17<sup>th</sup> of August 2018

## Activity Focus

Students, parents and community members from Ocean Reef Primary School participated in a 'hands on' science tabloid of investigations. The Ocean Reef Primary cardboard miniature boat building challenge to implement STEM skills and to celebrate National Science Week 2018 was conducted.

## STUDENT COMMENTS

**Mia:** I enjoyed working with my dad on the boat challenge. I got to stay up a little later because we worked on it together.

**Leo:** My boat is big and has a strong structure to hold marbles.

**Nate:** Working with Dylan was great and our boat is awesome!

**Elkah:** It was good!

**Zac M:** My design is based on a racing and fishing boat. It should catch game fish.

## PARENT COMMENTS

**Mark:** The activity was challenging. Reality verses design was different. Team work developed as the boat constructing improved. It was a challenging design and we went with style and form over function. Great activity!

**Aaron:** I enjoyed working with my daughter a lot.

## TEACHER COMMENTS

**Mr Merritt:** Thank you to all the students and members of the Ocean Reef Primary School community for participating in the 2018 National Science Week events. It was a tremendous effort by everyone involved in contributing to its success.
