TEACHER COMMENTS

The students had clearly given a lot of thought to their costumes and food that they brought in to represent 100. They were able to explain why they chose their costume and the food item they brought in. It was great to see some students really think 'out of the box' to come up with some unique ideas. It was a great way to celebrate 100 days and to represent the value of 100. We would like to thank the parents for their support in making our celebration so successful.
