

INCURSION REFLECTION

WHO & WHERE

Gymbus Term 1, 2019

Ocean Reef PS

EXCURSION FOCUS

Body movement - The program aims to provide all pre-schoolers and primary school aged children with the physical ability to move successfully into other sports and recreation activities before they leave primary school.

STUDENT COMMENT

Gymbus was so much fun. I have learnt how to tumble safely and also to take risks and climb. The lessons were fun and I enjoyed going each week. The Gymbus bus on the last day was lots of fun.

This term we did a Gymbus program. There was lots of balancing, rolling and jumping. I had a lot of fun, learning how to try and land safely if you do fall was fun and challenging. I thought it was really good to do something different, I have not done an activity like this at primary school before.

TEACHER COMMENT

Organised, very clear, structured, able to hit all ability levels, strong emphasis on the safety aspect, specialist, good condition of equipment, offers a skill that we at ORPS wouldn't be able to offer, unique experience, kids seems to enjoy and respect her lessons.

Mr Hinde.
