ORPS and ORSHS speaking and listening incursion and excursion

This semester, the Year 5/6 students have the exciting new opportunity to collaborate with a Year 9 English class from Ocean Reef Senior High School. The aim is to develop communication and interpersonal skills, specifically through speaking and listening tasks, which is part of the Year 5/6 curriculum. The students will be working alongside the Year 9 class to plan, rehearse and deliver a multimodal presentation on sustainability, which will be assessed as part of their speaking and listening grade.

ORSHS students will attend Ocean Reef Primary School for one lesson each week for 5 weeks of term 3, and 3 weeks of term 4. Students will work in groups, where the Year 9 students will facilitate learning under the guidance of their English teacher and co-constructed lesson tasks focusing on;

- Sustainability
- Creativity skills, including writing a speech and utilising multimodal elements to engage an audience
- Oral presentation and collaboration skills in groups

The program will culminate in week 4 where the Year 5/6 students will travel to ORSHS to present their projects in the Performing Arts Theatre, in front of their peers and the Year 9 class. This gives our students an exciting opportunity to deliver their multimodal presentations in an external context within our Ocean Reef community. During this final day of the project, the Year 5/6 students will have the chance to walk around the ORSHS campus, gaining an insight into how the everyday high school setting works. The Year 5/6 students will walk to and from the senior high school with Miss. McDermott, Mrs. Cheshire and Mr. Madden as the supervising team.
